## Every Inch of the Bates St Mule is Thoroughbred

The United States Government by means of the ment of Agriculture, has been looking into the track tion, and its bulletins clearly proves that the satisfied owner-men who say that the tractor has paid-are m the long run to own. It's just another case where a se higher priced article is far cheapest to own when you

The Bates thoroughbred quality comes not for claims, but from what's put into it. Every part that make up the BATES STEEL Mule is put there by experience. There isn't a part that isn't time-tried and for him, but do their best There isn't a part that experience hasn't dictated to and size of; and in it all there isn't one superfluous! Sabbath, one part that isn't capable of standing up under strain it gets in actual use. These are things experie practice have distracted. The BATES comes to you's with the Devil. Jesus what we pay for a thing. Value is what we get out of sider your tractor from what you will get out of it, how many working days you have when the ground consider the operations where you cannot afford to P must be performed even in rush times, you will then the BATES STEEL MULE is the biggest value offers tractor on the American market today.

# IMMIGRATION TIDE RUNNING

Washington.-Immigration into the United States is rapidly reaching the high tide of 1914, when 1,218,480 aliens were admitted. In 1918, the last year of the World War, 110,618 foreigners were admitted.

In 1919 the number increased to 141,132, but in the first six months of 1920, that is, up to June 30, 420,-001 aliens came to this country to

While figures for more recent months are not tabulated there is apparently an increase regulated only by the availability of steamship accommodations.
